Circus Floor Light

Designer- Resident Studio / Year 2018

The Circus Floor Light is a unique presentation of interlinking rings, inspired by the jewellery stands that would typically adorn a woman's makeup table.

Handmade in New Zealand and designed by Resident Studio, each Circus ring projects an elegantly diffused warm LED light-source outwards around a 360 degree plane. Circus is a remarkable decorative floor lamp with a small footprint, making it ideal for both commercial and residential applications.

Handmade in New Zealand.
