Kashmir Stool

Designer- Simon James / Year 2019

The Kashmir Stool is an exercise in the essential and speaks in low volume, it's steel frame references a simplicity from the past which is offset by a tailored back-rest. This refined stool envelops the sitter and provides generous comfort and support in all positions. Circular stitching details incorporated into the backrest gives this piece a strong sense of modern craftsmanship. The Kashmir collection will perform equally as well in a office, cafe or home.
