

Foundry Floor Light

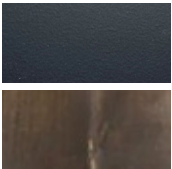

Cheshire Architects | 2014

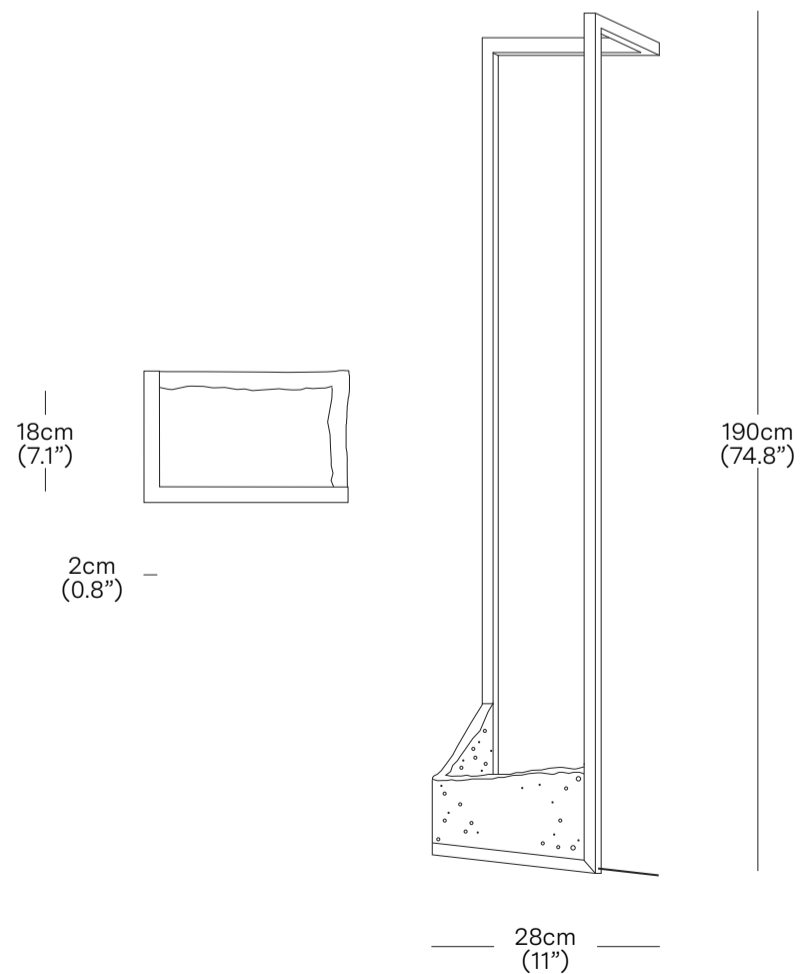

Foundry is an elegant and graphic floor light, standing 1.9 meters high and outlining a rectangular volume in space.

The Foundry Light is grounded by a partially polished solid bronze counterweight, which cantilevers the opposing height of the lamp. Integrated with a high quality LED light source that is elegantly diffused through frosted acrylic, Foundry confidently projects volumes of refined sophistication.

MATERIALS	CODE	PRODUCT
Bronze, Aluminium, Acrylic	FOU001	Foundry Floor Light
